

OUR CURVES ARE VERY ATTRACTIVE

# ALWAYS AHEAD OF THE CURVE.

A fourth-generation family-owned business with more than 70 years experience, Corrugated Industries began producing the Curved "S" Panel in the 1950's to protect what is important to our customers.

Perfect for boat slips and marinas, walkway covers, overhangs or arched canopies, the Curved "S" Panel offers a unique and affordable alternative to traditional gabled or hip roof framing.

Today, we continue to perfect the curve by utilizing top-of-the-line materials that surpass industry standards to guarantee product quality and sustainability. Throw your competition a curve, give us a call!

**4** generations as the protection connection
